

# KENNY ROGERS

Dear Laura,

What a great idea your project is! You truly are a new parent's best friend. I must say your book is incredibly easy to read and informative and what a lifesaver it was for Wanda and me.

With Wanda being a first-time mother with *twins* to say our life was chaotic is an understatement. It's amazing how a simple thing like your swaddling technique made the boys seem so much more secure and comfortable and that first full nights' sleep you can't put a price on.

Your book and your advice are essential to any household with infants.

Thanks for your friendship and your help.
